"LABELS", "LISTS", "S  
CHEMAS", "ITEMS" or  
"RULES" tabs

FROM "STORE  
GROUPS", "LISTS",  
"SCHEMAS",  
"ITEMS" or "RULES"  
tabs

This is the Labels tab from the main screen (slide 2). The User can change to the "STORE GROUPS", "LISTS" and "SCHEMAS". The user can also Add, edit or remove label types and add or remove individual label references to/from a label type. The label type is associated with a store group and the displayed types and references depend on the active selection in the store groups tab. The user can also toggle label References between "open" and "closed", which determines Whether they will be able to be Ordered on the internet.

FROM "VIEW NEW  
ORDERS", "VIEW  
NEW ORDERS BY  
ORDER NO"

This is the VIPS view new orders  
By product Page (slide 5).  
The user has 2 buttons. The user  
Can return to the "MAIN MENU"  
Or choose to "BATCH" with one  
Of the displayed store groups.  
The outstanding orders for  
The previously selected store  
Group are grouped  
By product and displayed in a  
Table. The user can select to  
Process for a particular product  
By selecting the checkbox against  
The required product.  
When the batch button is pressed  
Details of the current selection are  
Passed to the "view by order no"  
Page.

FROM LOAD

This is the VIPS Type Setting Job Controller. When a JOB is created via The VIPS production module a file containing the job details is created. The Job controller polls this directory for any New files. If a file is received the Controller loads the imaging software (Quark Express) with the correct template and loads the Data into FileMaker Pro to perform Any data substitution or lookups Required. When the VIPS Job Controller Is stopped it is possible to view job logs As well as modify the job in and job out Folders. The user can also view the available templates and view Successfully completed jobs.
